

L'atelier des archives present its brand new collection *JET MODE*

L'atelier des archives is proud to present its brand new collection *JET MODE*, the most complete compilation of audiovisual archives from the fashion world, from the 1990s to the 2020s. 30 years of fashion weeks, of full shows from the most prestigious designers, of never seen before backstage sneak peeks and of celebrities front rows. The collection also includes footage from the Festival de Cannes' red carpets and press conferences, charity galas and stock shots from Paris, New York, London and Los Angeles. More than 2,000 videotapes have been digitized, uploaded on our database under the reference « JET » and described. We also created a dedicated Youtube Channel ([click here to view](https://www.youtube.com/channel/UCnaunZVHyE_VbV_OkRyOcBg)), showing some of the gold nuggets we've digged so far.
