

SPECIAL COVID-19 STOCK IMAGES: Cities Lockdown

In these uncertain times, we, visual creators, must continue to create images for History. The world will need images to remember and explain.

Aerial footage and stills of lockdown cities, already available online :

London, Paris, Lille, Marseille, Montpellier, Tourcoing, Roubaix, Valenciennes, Visby (Sweden), Dunkerque, Vannes, Brest, Aix-en-Provence, Rennes, Pointe-à-Pitre, Fort-de-France, La Rochelle, Ile de Ré, Limoges, Belfort

Our artists have grasped **the historical moment** we are living through, and have undertaken to film the **empty streets and squares of Cities**, mainly in France and UK, while respecting health and air regulations.

We therefore, invite you to visit our [gallery dedicated to images related to the containment of cities, beaches, villages.](#)

Every day we receive dozens of new photos or videos, aerial or ground, of deserted cities (coming soon: Toulouse, Strasbourg, Metz, Bordeaux, Pantin, Perpignan, Cabourg, Lorient, Saint-Malo, Quimper, Frontignan, Montbéliard, Noirmoutiers, La Roche-sur-Yon,...)

If you are looking for this topic, check our gallery often, and if the city you are looking for is not yet listed, please drop us a line and we will do our best to find images for you.

Our regular aerial and time-lapse collection is still growing in parallel, and remains accessible 24 hours a day.

Take care and thank you for your support.
